COMPANY · CONFERENCE OR ALL-STAFF

Keynotes

Eight talks, all built on material from the book

AUDIENCE	FORMAT	DURATION	GROUP SIZE	PREREQUISITE
Conference or all-staff	Keynote	One talk	Any	None.

WHAT IT IS

Eight talks, each drawn from CLUTCH. Matched to the room rather than delivered as a single set piece.

THE TALKS

- You Are the Bottleneck, signature talk for founders and senior leaders: why everything still runs through you, and how to hand it over for good.
- Twenty People and a Few Million Dollars, signature talk for founders and early leadership teams: the point where the habits that built the company start costing it.
- The Only Part Engineered to Slip, for founders and executive teams: why emotional intelligence is a mechanical necessity rather than a soft skill.
- Engine Light On, for leadership teams and conferences: the free diagnostic, run live in the room in about two minutes.
- Nobody Trains the Expert, for technical and professional organizations: why the best individual contributor becomes the most expensive bottleneck.
- Road Conditions, for public-sector and mission-driven teams: naming the conditions, then handing people the decision modes.
- Take Two Weeks Off, for a short-form stage: one question, eighteen minutes, no frameworks.
- No Average Brain, for schools, HR and people teams: what changes when systems stop assuming one kind of mind.

BEST FOR

Conferences, all-staff days and leadership summits.
