COMPANY · ONE TEAM

The Owner's Manual Workshop

A team turns its diagnostic data into something it can actually use

AUDIENCE	FORMAT	DURATION	GROUP SIZE	PREREQUISITE
One team	Facilitated workshop	Three hours	One intact team	Participant OBDs, invoiced separately.

WHAT IT IS

A team takes its OBD data and writes personal Owner's Manuals: how each person works, decides, and wants to be approached. Then they swap them. The swap is the part that changes how the team works on Monday.

WHAT HAPPENS

- Participants arrive with completed OBDs.
- Each person drafts a personal Owner's Manual from their own read.
- The team exchanges manuals and works through what surprised them.
- The group agrees what it will do differently, in writing.

WHAT YOU LEAVE WITH

- A written Owner's Manual per person.
- A shared vocabulary for friction that is currently unspoken.
- Agreements the team made itself, rather than rules imposed on it.

BEST FOR

Intact teams carrying friction nobody has named out loud.

SCOPE AND RATE

INVESTMENT

Scoped and quoted on a call. A published rate applies for independent schools, nonprofits and public-sector teams.

Participant OBDs are a prerequisite and are quoted separately.

Scan to book thirty minutes on this

A short call to see whether it fits your team. Pick a time, answer a few short questions, and we start from your situation rather than an introduction.
